EXPERIENCE

REBOOTKAMP TUNISIA 2021- 2022

FULLSTACK JS INSTRUCTOR (TUNISIA)

- Instructed students in full-stack web development, achieving a high engagement level and driving proficiency in key technologies such as JavaScript, React, Node.js, and MySQL.
- Analyzed student performance metrics through rigorous assessments and coding challenges, identifying key areas for improvement; personalized mentorship resulted in a 30% increase in student confidence and skill mastery.

QUINCAILLERIE DE SFAX 2024

FULLSTACK DEVELOPER (FREELANCE)

- Engineered and designed accounting software utilizing React.js, Express.js, and MySQL.
- Developed a comprehensive dashboard that consolidated purchase, sales, and inventory data, allowing for weekly analysis of 3000+ articles; transformed reporting processes and facilitated informed decision-making for stakeholders.

TIME DELIVERY 2024

FULLSTACK DEVELOPER (FREELANCE)

- Built a food delivery app using React Native, Express and MySQL, with separate dashboards for admins, clients, delivery drivers, and restaurants.
- Added a real-time map feature to track the locations of clients and restaurants, improving delivery accuracy.
- Implemented a system for restaurants to view earnings by date and for delivery drivers to check their daily deliveries and earnings.
- Designed an admin dashboard for managing 1,000+ accounts and tracking order statuses in real time, from pending to completed.

PROJECTS

ESCAPE 2021

FULLSTACK DEVELOPER

- Engineered an online marketplace focused on camping products with advanced features using React.js, Express.js, and MySQL; implemented user-friendly admin controls to enhance the tracking of over 1,000 product listings.
- Configured Stripe for secure payments and JWT for user authentication, ensuring account-based purchases with encryption capable of processing hundreds of transactions daily.
- Introduced a blog feature for users to share camping stories and experiences, designed to support thousands of posts and user interactions.

CHEERS 2021

FULLSTACK DEVELOPER

- Created an event management app using Ionic React, Express, and MySQL, designed to handle thousands of users browsing and managing events.
- Implemented a feature for users to create events, with admin approval streamlined through a centralized dashboard for efficiency.
- Integrated a secure ticket booking system using Stripe, capable of processing hundreds of transactions daily with robust payment encryption.
- Implemented real-time messaging with WebSockets, supporting seamless communication between clients and event organizers for up to 200 simultaneous users.
